**Subject:** AP Mobile: Mine plug blows in Colorado, dumping 1M gallons of waste

A story from AP Mobile:

## **Mine plug blows in Colorado, dumping 1M gallons of waste**

DENVER (AP) - A million-gallon mine waste spill that sent a plume of orange-ish muck down a river in southwest Colorado on Thursday was caused by a federal mine cleanup crew.

The U.S. Environmental Protection Agency said that a cleanup team was working with heavy equipment Wednesday to secure an entrance to the Gold King Mine. Workers instead released an estimated 1 million gallons of min...
